

Create A Table

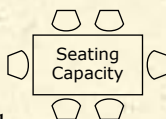

*have fun and
create a table that is yours*

1. Choose a Table Top

Choose from a variety of shaped table tops. Some tops are crafted from 2" thick solid Alder butcherblock, others are a refined 1 1/4" solid Alder plank.

In this offering, you will find tables that comfortably seat six, eight or even twelve. Look for the seating capacity symbol on the following pages. Minimal assembly is required.

Plank

Butcherblock

2. Choose a Leg

Combine a table top with stylish standard legs, large legs or counter height legs. Standard and large legs are offered in country or transitional styles. Our gathering legs allow you to put your table at island height for use with counter stools. To calculate approximate table height, add the gathering leg height to the thickness of the table top. Made of solid American Alder hardwood. All leg kits sold separately.

Standard Legs

Double Pedestal Options

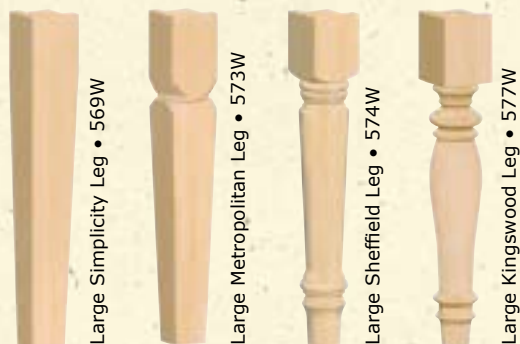

See page 22.
